Since the inception of the Clinical Research Centre by Ministry of Health in August 2000, Good Clinical Practice (GCP) has become an important aspect in the conduct of clinical trials in Malaysia. Physicians, researchers and healthcare providers should be familiar with the principles of GCP to ensure that clinical trials and research involving human subjects are performed in accordance to global ethical and scientific standards. Hence, the main objective of the current GCP seminar is to provide training in GCP to those who are involved or interested in the conduct of such research. You may read the guideline on GCP in advance at www.nccr.gov.my.
