

## TESTIMONIALS

" I have been benefited so much by attending this course...  
...The best part is the continuous support provided by Dr Abhishek even after completing the workshop..."  
- Dr. Yeoh SiuMing

" ...Very comprehensive workshop with plenty of hands on done under the microscope.  
...As Dr. Abhi said "You can't treat what you cannot see" this is so true after using the microscope!..."  
- Dr. Lee YuoYing

" Suitable for those who are really afraid of molar endodontics...  
...Everything you need to know in 3 fulfilling days... I'm so glad I've signed up for this course..."  
- Dr. Maanprit Toor

" I would like to thank IMU very much for this absolutely excellent and professional course. I found the course to be incredibly informative and I've learned a lot, in which of course made my life easier in daily practice "

" This course is great for anyone with different skill levels...  
...You'll go home with such a strong foundation in every step of RCT..."  
- Dr. Tham RuYueh

" This is an excellent endodontic course and I have gained good learnings from it. Would definitely recommend this course to anyone. "

## COURSE CONTENT

### ◆ DAY 1

23 OCT 2020

- Pathogenesis and diagnosis of pulpal and periradicular disease
- Pain management and local anaesthetic techniques
- Isolation techniques using rubber dam
- Role of CBCT in endodontics
- Operative microscope in endodontics
- Molar teeth access cavity preparation
- Use of Ultrasonics in access cavity preparation and finding MB2 canals
- Root canal anatomy and implications for root canal treatment

### ◆ DAY 2

24 OCT 2020

- Importance and strategies to achieve glide path
- Rotary endodontics using latest instruments
- Latest concepts and techniques to achieve disinfection of the root canal system
- Management of curved canals
- Three dimensional obturation techniques using thermoplasticized obturation systems
- Prevention and management of ledge formation

### ◆ DAY 3

25 OCT 2020

- Importance of coronal seal
- Concepts and solutions to restore endodontically treated teeth
- Latest bulkfill material in post endodontic restoration
- Management of badly broken down teeth
- Problem-solving-management of perforation (Perforation repair)
- Single vs multiple visits endodontics

### ◆ DAY 4

17 JAN 2021

- Case based learning
- Patient management in endodontics
- Group reflection and feedback

The organiser will make every effort to deliver the programme as published. However we reserve the right to make modifications to the programme and content if deemed necessary and reasonable.

## Demystifying Molar Endodontics

◆ PART 1 : 23 – 25 OCT 2020

◆ PART 2 : 17 JAN 2021

## COURSE OVERVIEW

Molar endodontics often present with various challenges to the clinician. These may include difficulty in isolation, access preparation, negotiation of curved/calcified canals, disinfection and obturation. Therefore, this course is designed for dental practitioners who wish to perform molar endodontics with higher confidence and predictable clinical outcome. It will focus on a systematic clinical diagnostic and treatment protocol in the endodontic management of molar teeth with minimal to moderate difficulty.

The first part of the course includes three days of lectures, demonstrations and hands-on workshops on extracted teeth highlighting the benefits of illumination/magnification using operating microscopes, ultrasonics, advanced rotary canal preparation, newer irrigation devices, thermoplasticised obturation techniques/systems and factors influencing the choice of material and design of restorations for root-filled teeth with hands-on experience in use of latest bulkfil material to achieve predictable coronal seal.

The second part includes 4 mentoring sessions, case based learning, reflection and discussion.

Certificate of attendance with CPD points will be provided at end of the course.

To be eligible for a certificate of successful completion of training in molar endodontics, participants will submit a reflective report of 1 completed case for assessment.

Upon completion of the programme, the candidate should be able to:

- apply the fundamental knowledge of endodontics in clinical practice
- manage endodontic cases with a high degree of predictability

## COURSE FEE

### RM4,000

### HIGHLIGHTS

- Mentoring sessions by experienced endodontists
- Hands-on experience using dental operating microscope & loupes
- Bring home materials and instruments worth more than RM1,000
- Collect CPD points

◆ **Dr Abhishek Parolia**  
BDS (Manipal), MDS (Manipal),  
MFDSRCPS (Glasgow),  
MFDSRCS (Edinburgh), PhD  
Head, Clinical Dentistry  
School of Dentistry  
International Medical University  
Malaysia

Dr Abhishek Parolia graduated from Manipal University and awarded a gold medal in Conservative Dentistry and Endodontics. He is a very active practitioner of Endodontics with more than 10 years of vast experience in training young dentists especially in rotary endodontics and retreatment cases. He received a Research Incentive Award in 2010 and 2011 from Manipal University and Marquis Award (USA) in 2011. He has received awards in recognition of his significant contribution and talent as a newcomer in 2011, invaluable contribution in leading ICDAS initiative in 2014, E-learning Innovation Award (Team category) in 2016 and best faculty presentation (Education Research Group) at the General Meeting of International Association of Dental Research (IADR) held in San Francisco, USA, 2017. He is a reviewer for Cariology Research, International Association of Dental Research (IADR)/PER, 2017-2018 and nominated for the Secretary post, 2018-2019 and Vice President post, 2019-2020 IADR Cariology group. He is a member of ICDAS National Benchmark Group, Malaysia. He has published more than 50 scientific papers in national and international peer-reviewed journals and authored five chapters in three text books. He has conducted workshops and lectured locally and internationally in many countries such as India, Malaysia, Indonesia, Vietnam, Cambodia, Thailand, HongKong, Dubai, Brazil, Australia, and Canada.

◆ **Dr Shekhar Bhatia**  
BDS (Manipal), MDS (Mysore),  
MFDSRCPS (Glasgow),  
MFDSRCS (Edinburgh)  
Senior Lecturer - I  
School of Dentistry  
International Medical University  
Malaysia

He graduated from Manipal University, India in 2006 and specialized in Conservative Dentistry and Endodontics from J.S.S Dental College and Hospital Mysore, India (2007-2010). He is presently working as a lecturer in the International Medical University. He was awarded the John Simpson Trophy for Teaching Excellence in 2016. He is a member of various national and international dental associations and has numerous publications in peer reviewed journals. He has special interest in rotary endodontics, disinfection in endodontics, single visit endodontics and aesthetic restorations.

◆ **Prof Seow Liang Lin**  
BDS (Malaya), MSc (London),  
FDSRCS (England), PhD (Malaya)  
Clinical Professor, Associate Dean  
School of Dentistry  
International Medical University  
Malaysia

Prof Seow is currently the Associate Dean for the School of Dentistry at the International Medical University, Kuala Lumpur. She obtained her BDS degree from University of Malaya, Master degree from Eastman Dental Institute with Petronas scholarship and PhD degree from University of Malaya in a split-site research programme with University of Manchester sponsored by a Commonwealth Medical Scholarship. Her areas of interest include fixed prosthodontics, aesthetics, direct composite restorations, adhesion and cariology. She has been awarded for best oral presentation at the 20th Anniversary CEREC Symposium, FDI World Congress, Asian Academy of Prosthodontics Congress, Singapore IDEM, Travel Award at the 12th International Association for Dental Research (IADR, SEA Division). She is the Founding President of Malaysian Association for Prosthodontics and currently the President of the Asian Academy of Prosthodontics. She was the Honorary Publication Secretary for Malaysian Dental Association for three consecutive terms (2007-2010) and had held the position of Secretary and Council Member of the International Association for Dental Research (Malaysian Section). She is a Council Member for the Malaysian Association for Aesthetic Dentistry and Examiner for the MFDS examination of the Royal College of Surgeons of Edinburgh.
